Grant/Contract No.:	NAG9-01470		
Performance Goal No.:			
Performance Goal Text:			

Task Description:

This grant provides support to the National Council on Radiation Protection and Measurements for its scientific committees and projects. There are six Program Area Committees (PACs), each of which has several scientific committees (SC), operating in the following areas of radiation protection and measurements:
PAC 1. Basic Criteria, Epidemiology, Radiobiology and Risk

SC 1-7. Information Needed to Make Radiation Protection Recommendations for Travel Beyond Low-Earth Orbit

SC 1-8. Risk to Thyroid from Ionizing Radiation

SC 1-13. Impact of Individual Susceptibility and Previous Radiation Exposure on Radiation Risk for Astronauts

SC 1-15. Radiation Protection and Science Goals for Short-Term Lunar Missions

SC 85. Risk of Lung Cancer from Radon

PAC 2. Operational Radiation Safety

SC 46-17. Radiation Protection in Educational Institutions

PAC 3. PAC 3 Nonionizing Radiation

SC 89-5. Study and Critical Evaluation of Radiofrequency Radiation Exposure Guidelines

PAC 4. Radiation Protection in Medicine

SC 4-1. Management of Persons Contaminated with Radionuclides

SC 91-1. Precautions in the Management of Patients Who Have Received Therapeutic Amounts of Radionuclides

PAC 5. Environmental Radiation and Radioactive Waste Issues

SC 64-22. Design of Effective Effluent and Environmental Monitoring Programs

SC 64-23. Cesium in the Environment

SC 87-3. Performance Assessment of Near Surface Radioactive Waste Facilities

PAC 6. Radiation Measurements and Dosimetry

SC 6-1. Uncertainties in the Measurement and Dosimetry of External Radiation Sources

SC 6-2. Radiation Exposure of the U.S. Population

SC 6-3. Uncertainties in Internal Radiation Dosimetry

SC 57-17. Radionuclide Dosimetry Models for Wounds

Rationale for HRP Directed Research:	
Research Impact/Earth Benefits:	NCRP's mission is to help disseminate information and research data about radiation exposure and protection guidelines in the public interest.
Task Progress:	The report of Scientific Committee 1-7 was completed and published in 2006 as NCRP Report No. 153. Drafts of the reports of Scientific Committees 1-13 and 1-15 have been prepared and are being revised in preparation for peer review by NCRP's Council.
