Performance Goal Text:			

This grant provides support to the National Council on Radiation Protection and Measurements for its scientific committees and projects. There are six Program Area Committees (PACs), each of which has several scientific committees (SC), operating in the following areas of radiation protection and measurements:
PAC 1. Basic Criteria, Epidemiology, Radiobiology and Risk

SC 1-7. Information Needed to Make Radiation Protection Recommendations for Travel Beyond Low-Earth Orbit

SC 1-8. Risk to Thyroid from Ionizing Radiation

SC 1-13. Impact of Individual Susceptibility and Previous Radiation Exposure on Radiation Risk for Astronauts

Task Description:	SC 1-15. Radiation Protection and Science Goals for Short-Term Lunar Missions SC 85. Risk of Lung Cancer from Radon PAC 2. Operational Radiation Safety SC 46-17. Radiation Protection in Educational Institutions PAC 3. PAC 3 Nonionizing Radiation SC 89-5. Study and Critical Evaluation of Radiofrequency Radiation Exposure Guidelines PAC 4. Radiation Protection in Medicine SC 4-1. Management of Persons Contaminated with Radionuclides SC 91-1. Precautions in the Management of Patients Who Have Received Therapeutic Amounts of Radionuclides PAC 5. Environmental Radiation and Radioactive Waste Issues SC 64-22. Design of Effective Effluent and Environmental Monitoring Programs SC 64-23. Cesium in the Environment SC 87-3. Performance Assessment of Near Surface Radioactive Waste Facilities PAC 6. Radiation Measurements and Dosimetry SC 6-1. Uncertainties in the Measurement and Dosimetry of External Radiation Sources SC 6-2. Radiation Exposure of the U.S. Population SC 6-3. Uncertainties in Internal Radiation Dosimetry SC 57-17. Radionuclide Dosimetry Models for Wounds
Rationale for HRP Directed Research:	
Research Impact/Earth Benefits:	NCRP's mission is to help disseminate information and research data about radiation exposure and protection guidelines in the public interest.
Task Progress:	Various committee (PAC and SC) meetings were held throughout the reporting period. Commentaries and other publications are in draft format, or have been published.
