Fiscal Year:	FY 2006	**Task Last Updated:**	FY 10/17/2005
PI Name:	Mitchell, Cary Ph.D.		
Project Title:	(NSCORT) for Advanced Life Support at Purdue/Howard/AAMU - Education & Outreach Lead		
Division Name:	Human Research		
Program/Discipline:	ADVANCED HUMAN SUPPORT TECHNOLOGIES		
Program/Discipline--Element/Subdiscipline:	ADVANCED HUMAN SUPPORT TECHNOLOGIES--Advanced life support		
Joint Agency Name:		**TechPort:**	No
Human Research Program Elements:	None		
Human Research Program Risks:	None		
Space Biology Element:	None		
Space Biology Cross-Element Discipline:	None		
Space Biology Special Category:	None		
PI Email:	cmitchel@purdue.edu	**Fax:**	FY 765-494-0391
PI Organization Type:	UNIVERSITY	**Phone:**	765-494-1347
Organization Name:	Purdue University		
PI Address 1:	Department of Horticulture and Landscape Architecture		
PI Address 2:	625 Agriculture Mall Dr		
PI Web Page:	http://www.alsnscort.org		
City:	West Lafayette	**State:**	IN
Zip Code:	47907-2010	**Congressional District:**	4
Comments:			
Project Type:	Ground	**Solicitation / Funding Source:**	NSCORT
Start Date:	12/01/2002	**End Date:**	11/30/2006
No. of Post Docs:	0	**No. of PhD Degrees:**	0
No. of PhD Candidates:	0	**No. of Master' Degrees:**	1
No. of Master's Candidates:	1	**No. of Bachelor's Degrees:**	4
No. of Bachelor's Candidates:	4	**Monitoring Center:**	NASA JSC

Flight Program:			
Flight Assignment:	NOTE: End date is 11/30/2006, per info from PI office (2/2009)		
Key Personnel Changes/Previous PI:	0		
COI Name (Institution):	Hains-Allen, Julia (Purdue University)		
Grant/Contract No.:			
Performance Goal No.:			
Performance Goal Text:			
Task Description:	The ALS/NSCORT Education and Outreach programs provide an avenue to engage and educate K-12 formal and informal educators/students in the center's investigations of the synergistic concepts and principles required for regenerative life-support in extended-duration space exploration. In 2005, Julia Hains-Allen, Education and Outreach Manager, successfully obtained $384,240.00 to fund the centers main two thrust areas in educational programming: 1) Mission To Mars and 2) Equivalent System Mass Analysis: Will It Fly? ALS/NSCORT EDUCATION/OUTREACH GOALS AND OBJECTIVES 1. Increase the number of educators and students who are involved in NASA related education opportunities. 2. Increase the scientific literacy of K-12 educators, students and informal education community, fostering public awareness and the earth benefits of NASA research. 3. Increase the number of educators and students directly engaged in NASA research. 4. Increase the number and diversity of students from underrepresented and underserved communities in NASA related		

	STEM fields. ALS/NSCORT education and outreach programs have experienced substantial growth over the last year. To accommodate the growth and future nationwide dissemination of Mission To Mars and Equivalent System Mass Analysis “Will It Fly?, funds were obtained and leveraged to allow the hiring of two full time outreach coordinators in June 05. The entire Education and Outreach staff will provide numerous workshops throughout the United States in FY06 on all programs within ALS/NSCORT Education and Outreach. The scope is nationwide with the primary audience consisting of 5-8th grade educators/students for Mission To Mars and 11th-12th grade educators/students in Equivalent System Mass Analysis Will It Fly?.
Rationale for HRP Directed Research:	
Research Impact/Earth Benefits:	• Increase the number of students/educators who are involved in NASA related education opportunities. • Increase the scientific literacy of K-12 educators, students and general public, fostering public awareness and the earth benefits of NASA research. • Increase the number of students directly engaged in NASA research. • Increase the number and diversity of students who pursue graduate degrees and research careers in NASA related science, engineering and technology fields. • Increase higher education research capability and opportunities that attract and prepare students for NASA related careers.
Task Progress:	ALS/NSCORT Education and Outreach has grown significantly in FY05. Programs were in their infancy stage at the beginning of FY05 and each has completed extensive pilot testing, assessment, and revisions. Dissemination of the two thrust programs is worldwide to date, including educators in 11 states and Tegucigalpa, Honduras.
